### TRAINING & CERTIFICATION

### QUALITY SERVICES

## DIRECTOR'S PROFILE

**MR. SHEIK MOIN**

IQRA Quality Services Pvt Ltd is Co-Founded by Mr. Sheik Moin, Ex-Business Head of Asset Integrity Management at TATA Projects Limited-Quality Services Department. He holds a Bachelor's degree in Mechanical Engineering from Osmania University with Distinction. He has about 15 years of rich experience in the field of Inspection, Expediting, Training, Auditing, Vendor Assessment and Testing.

Mr. Sheik Moin is a well-known Trainer for conducting TWI Training Program in India. He has successfully completed various Overseas Inspection and Audit assignments in countries like Italy, South Africa, Bahrain, South Korea and China.

He is a Lead Auditor for ISO 9001, Certified Assessor for TATA Business Excellence Model (TBEM), American Petroleum Institute-Authorized Piping Inspector & Authorized Storage Tank Inspector, CSWIP-UK Certified Senior Welding Inspector, British Gas Certified Senior Painting Inspector and ASNT Certified Non-Destructive Testing Inspector.

Mr. Sheik Moin's passion to mentor, guide and train Professionals & Engineering Graduates has led him to start 'IQRA Quality Services' in India since it was felt that the Training and Quality Services are the need of the Industry.

**MR. RAGHUNATH RAVULA**

IQRA Quality Services Pvt Ltd is Co-founded by Mr. Raghunath Ravula Ex-Assistant General Manager and Head Training at TATA Projects Limited-Quality Services Department. He is a B.Tech (Mechanical Engineer) from JNTU-HYD and has over 25 years of experience in the field of Inspection, Expediting, Training, Auditing, Vendor Assessment, Testing and other related activities across Industrial Sectors.

Mr. Raghunath also served Public Sector Companies, BHEL & Bharat Dynamic Limited, in the field of Design and Inspection of Missiles respectively. During his tenure as Third Party Inspector, he has carried out more than 5000 inspection visits to companies across India and countries like Singapore, Oman, South Korea, China etc., and made significant contribution in Quality.

Mr. Raghunath is a Chartered Engineer (India), Lead Auditor for ISO 9001, Certified Welding Inspector (AWS, CSWIP, WRI, ADOR), Certified Painting Inspector-BGAS & Certified Non-Destructive Testing Inspector. Involvement in such varied technical expertise and extensive exposure thereto has given him a comprehensive and in depth understanding of the technical, operational and administrative aspects. He has trained over 3000 participants from companies across industrial sectors.

## OUR VISION

To be a partner of excellence in providing Training and Quality Services

## OUR MISSION

To provide complementing concept based training and reliable quality services for enhancing customer satisfaction.

## OUR TRAININGS

IQRA Quality Services provides training to Professionals, Engineering Graduates and Skilled Workforce from all over the world with the knowledge, skills and ability to make a valuable contribution to organisational & individual's objectives enhancing professional credibility in subjects that are current, interesting and relevant across geographies.

### IQRA Quality Services provides:

- International Training Programs
- In-house training programs
- Customized Training Programs

IQRA Quality Services experts are qualified in ISO 9001, NDT Level III, API, CSWIP, AWS, BGAS & Safety Certification programs and have designed the training programs encompassing the knowledge base of these International programs. Working with only the very best trainers, we ensure our learners gain their qualifications in an interactive, engaging and motivating training environment – and enjoy their learning experience.

Our Training programs are designed as class room training having a blend of lectures, Power Point Presentations, photos and videos to have conceptual knowledge. We provide practical hands on experience on using the relevant inspection and test instruments.

## OUR INDUSTRIAL SERVICES

IQRA Quality Services is an Industrial Solution Provider offering high Quality Services with a sound technical edge and a commitment to deliver our Services safely and within the stipulated time period.

IQRA Quality Services believes in maintaining high standards of business conduct to enhance overall business performance and improve reputation with stakeholders by providing total Quality Services in respective fields. We are focussed in assisting our clients in meeting their objectives in terms of Management, Quality, Quantity, Specification, Cost and Delivery.

## Our Trainings

A unique program on Welding & Painting Inspection which was conceptualised, designed, developed and executed by the Directors pan India was well appreciated by Government sector, Public-Sector, Private Sector Companies and Individuals aspiring to qualify and work in the lucrative overseas Oil and Gas Sector.

The Training Programs conducted by IQRA Quality Services are enumerated below

### International Training Programs

Our Training Programs also serves as a preparatory for the following International Certification. Our exceptionally high pass rates in API, Lead Auditor, NACE, BGAS, CSWIP, AWS & Safety demonstrate our passion in achieving your goals. Our trainers understand that each participant brings different experience and areas of specialization and hence our expertise in designing the training programs & Material content is beneficial.

### Training Programs

Code	Description
ITP01	API 510
ITP02	API 570
ITP03	API 653
ITP04	CSWIP 3.1
ITP05	CSWIP 3.2
ITP06	NACE CIP LEVEL 1
ITP07	NACE CIP LEVEL 2
ITP08	BGAS GR 1
ITP09	BGAS GR 2/3
ITP10	HSW Safety
ITP11	IGC Safety
ITP12	NDT LEVEL I/II
ITP13	AWS-CWI
ITP14	AWS-SCWI
ITP15	ISO 9001 Lead Auditor

## In-House Training Program

IQRA Quality Services offers a variety of practical, industry-focused training courses that vary in length, location and delivery method, depending on your needs.

Our job-specific foundation courses and advanced technical competency development training are ideal for engineering graduate to get employment.

IQRA Quality Services cover a broad spectrum of training needs for Professional, Engineering Graduates and Skilled Craft man from the Oil & Gas, Petrochemicals, Steel, Power, Cement, Fertilizers, Pharma, and Food Processing Industry. Our experienced faculty ensure the learning objectives as well as the course content stay relevant to current industry needs and challenges. In addition to our In-House training program, we understand the importance of offering Quality customized training program.

## List of IHT Programs

Code	Description
IHT01	Corrosion Damage Mechanism
IHT02	Painting Inspection
IHT03	Painting Defects-Causes and Remedies
IHT04	Cathodic Protection
IHT05	Certified Painting QA/QC Inspector
IHT06	Specialized Coatings
IHT07	Pipeline Coating Inspector
IHT08	Industrial Maintenance painting
IHT09	Hot Dip Galvanization
IHT10	Metallized Coatings
IHT11	Welding Inspection
IHT12	Welding Defects- Causes and Remedies
IHT13	Welding Metallurgy
IHT14	Welding Process-Advantages and Disadvantages
IHT15	Special Welding Processes-Weld metal overlay
IHT16	Welder Training Program
IHT17	Welder Qualification and Welding Operator Qualification
IHT18	Welding Procedure Qualification
IHT19	Weld Distortion-Prevention and Control
IHT20	Weld Testing by NDT
IHT21	Certified Welding QA/QC Inspector
IHT22	Brazing Process-Advantages and Disadvantages
IHT23	Brazing Qualification and Brazing Operator Qualification
IHT24	Brazing Procedure Qualification
IHT25	Certified Pressure Vessels Inspector
IHT26	Heat exchangers
IHT27	Certified Storage Tanks Inspector
IHT28	Certified piping QA/QC inspector
IHT29	Source Inspection Fixed Equipment
IHT30	Source Inspection Rotary Equipment
IHT31	Certified Hydro test Inspector

**Code****Description**

IHT32	Structural material inspection
IHT33	Machining inspection
IHT34	Cement Machinery Inspection
IHT35	Mechanical testing and PMI
IHT36	NDT Training (VT, DPT, MPT, RT & UT)
IHT37	Casting
IHT38	Forging
IHT39	Heat Treatment
IHT40	Line Pipe
IHT41	Pipe Fittings and Flanges
IHT42	Valves
IHT43	Material Handling Equipment
IHT44	MEP
IHT45	HVAC

**Customised Training Program**

IQRA Quality Services experts can design and deliver tailor made training programs. We come to you with specific, multidisciplinary proficiency programs elaborated after a thorough analysis of your requirements, needs and objectives. We also adjust existing, or develop new programs to guarantee that you will always receive a comprehensive training solution adapted to your unique challenges. Our programs are designed to enhance your level of expertise and to address any local operational concerns you have.

## Our Services

IQRA Quality Services professionals are experienced and trained to meticulously follow the same established procedures to provide our clientele with uniform level of service. Our Clients are also supported as technical service partner in their pursuit for excellence in improvement of their process & product Quality by utilizing our Services at their construction sites and industry premises.

The team has professionals having more than two decades of experience in providing below Services

Code	Description
TPI	Third Party Inspection
FQS	Field Quality Services
EXP	Expediting Services
AIM	Asset Integrity Management
CPM	Contractors Performance Monitoring
SQE	Supplier Quality Evaluation
NDT	NDT Services
WPS	Welding Procedure Qualification Services
BPS	Brazing Procedure Qualifications Services
WPQ	Welder Performance Qualification
BPQ	Brazer Performance Qualification
MPS	Manpower Services

### WELDER'S IDENTIFICATION CARD

**IQRA** Quality Services Pvt. Ltd.  
121 Downtown Mall, Lakdikapul, Hyd. - 04

**WELDER'S IDENTIFICATION CARD**

**K. RAJU - 084**

Process	: SMAW/GMAW/FCAW		
Position	: 3G, 4G, 1F, 2F, 3F, 4F		
Material	: P1		
Filler	: E-7018, ER-70S-6, E-71T-GS		
Current	: DCEP		
Groove	: 50		
Fillet Thickness	: 50		

	Plate	Pipe	Dia
	50	50	50

**Passed** Code : AWS D1.1  
**Expire Date : 2020** Code : AWS AS 20

## Overseas Presence

As part of global growth strategy, IQRA Quality Services has strategic tie-up with overseas organizations which are into Training and Quality Services. Our unique, industry-focused, customized training solutions and services are delivered across geographies by experienced trainers and inspection engineers with technical expertise. We maintain longstanding partnership with our clients to improve their competency of the workforce to the highest industry standard, wherever in the world.

Presently we have a strategic operational tie-up at China and Middle East with following companies for facilitating our customers with local advantage for speed of delivery and economy.
